opportunity to learn in a safe and caring environment. JSA offers a comprehensive, individualized, one-to-one direct instruction utilizing the principles of applied behavioral analysis.

Children with autism can learn to socialize, communicate, and become valuable members of society. Each child with autism is

unique with his/her own educational profile that needs to be addressed. While many schools focus on a single modality of education, we believe that an integrated approach can provide a more comprehensive educational curriculum.

Together, we can make a difference!  
Join JSA in helping children improve  
their odds of defeating autism!
